

My Data in Your Cloud

My Data in Your Cloud

...or was that Your Data in My Cloud?

What makes a Cloud?

What makes a Cloud?

- Network delivered?
- External?
- Free?
- SaaS? IaaS?
- Cloud ↔ local crossover?

Who are the users?

Who are the users?

- The Institution?
- The End User?
- Remember we are no longer the gatekeepers

Those in favour

Those in favour

- Cost
- Functionality
- Fashion
- They will do it anyway

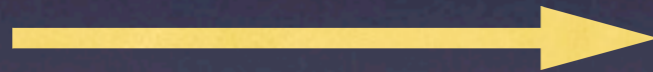

Those against

Those against

- Support
- Functionality
- Legality
- Continuity

Those against

- Support
- Functionality
- Legality
- Continuity
